**New Jersey Department of Labor and Workforce Development
Pre-Apprenticeship in Career Education (PACE)
FY 2024 Grantee Directory - Round 2**

The purpose of the Pre-Apprenticeship in Career Education (PACE) program is to prepare individuals to enter and succeed in [Registered Apprenticeship](#) programs. These pre-apprenticeship programs have a documented partnership with at least one Registered Apprenticeship program sponsor that is committed to hiring from the pre-apprenticeship program within 18 months from the start of the contract period of performance, and together, they expand the participant's career pathway opportunities with industry-based training coupled with classroom instruction. The program will drive economic development through skills and educational attainment and create pathways to better-paying careers and advanced credentials.
