High School Drop-Outs Automatically Qualify

Preparing tomorrow's workforce...today!

"When I started the YES program, I was a 20 year-old mom of a three month old baby. I had given up on ever going back to school because of my responsibilities. I heard about this program and decided to give it a try. Three years later, I am now certified in Multimedia Communications and working towards my degree to be a substance abuse counselor. I have been on the Dean's list and my GPA is the highest it's ever been. The YES program gave me the tools I needed to get myself to where I wanted to be in life. I am grateful for this program and to the people who worked with me.
